

NATO CODIFICATION SYSTEM

Advanced Course

Objectives

The advanced course in the NATO Codification System (NCS) will provide the trainees with following knowledge and skills:

- **Deeper understanding of the basic principles and standards of the NCS**
- **Detailed familiarity with procedures of descriptive item identifications**
- **Maintenance of an item identification**
- **International data exchange**
- **Policy and methods of managing the NCS**
- **New trends in the NCS based on ISO 8000, ISO 22745 and eOTD**
- **Practice in NATO Codification (with codification software MC CATALOGUE incl. the MCC eOTD module package)**

This course may be tailored to meet the particular needs of your organization. Please, contact us with your training requirements. If applicable, our staff will evaluate your needs and requirements and adapt a training plan accordingly.
